

To whom it may concern,

I would like to give a very positive referral in regards to ComDoc, their Service Reps, and ordering supplies.

When we first got the new copiers from them, our office staff received an in-service on how to use the machines. The ComDoc rep was knowledgeable, and shared some very helpful tips with us. They were easily accessible to contact if we had any problems.

The staff I have dealt with on the telephone and in person are very professional and helpful. The Service Technicians are prompt and complete their repairs on a timely fashion. We rarely have to wait for more than a few hours after we call for service before the repairman arrives.

And ordering supplies is a breeze! We can call in an order - or - order on-line. The supplies arrive usually the next day!

Mary Irene Day School is very happy with our ComDoc Copiers (we have 3!) The copiers, themselves, are workhorses! We have 75 staff members in our building, and those machines run CONSTANTLY! I would personally recommend ComDoc to anyone thinking of installing new copiers or replacing their old ones. You won't regret it!

Sincerely,

Shirley Krumlauf
Secretary, Elementary School
