

Forging a partnership between farmers and consumers
• Working together for Ohio's farmers •

January 6, 2009

To whom it may concern,

The Ohio Farm Bureau has 3 black and white and 3 color copiers contracted with ComDoc. They have been our only copier supplier since 2006.

We are very pleased with the prompt and reliable service we have received over the years. The service technicians are very knowledgeable and pleasant to work with.

Ordering supplies and posting meter reads has been greatly simplified with internet access to our account.

We have always received immediate responses to any questions or concerns we may have had concerning any aspect of our contract and would gladly refer their service to anyone that may be considering doing business with ComDoc.

Sincerely,

A handwritten signature in black ink that reads 'Patricia A. Rutter'.

Patricia A. Rutter
Print Services Coordinator
