

To Whom It May Concern:

I am writing today to speak of the extreme satisfaction I have experienced with ComDoc. The customer support service has to be one of the best aspects of the company. The few times I have had any problems with my machine, the technical support representative was promptly on site to correct the issue. My phone call is always returned within 30 minutes by the technical support representative after placing a call to the service center and my machine is serviced by the end of the business day.

Every staff member of ComDoc I have spoken with has been extremely knowledgeable, courteous, and professional. My sales representative was fantastic! After asking a few simple questions, she was able to set my office up with the perfect machine for my business type. I felt confident in her expertise and felt no high pressure sales to purchase equipment I was not in need of for our office.

I feel 100% confident in recommending ComDoc to anyone who is in need of their services. I truly can not think of one negative thing I could say about this company.

Sincerely,
Michelle
