To Whom it may Concern

As a long time customer of Comdoc, I would highly recommend them for copiers & printers. We have had 5 of their machines and have been completely satisfied with the technical and service staff. Getting to our facility quickly to take care of our needs so our business day is interrupted as little as possible.

Comdoc has over the years proven to have the best customer service, they are always friendly and efficient. When we have on occasion run out of supplies they have made every effort to either have someone bring it to us that day or have it in our school the next day.

When it comes to printing needs in our business, catalogs, student handbooks, client menus, test forms and many other daily printable items, we relied on Comdoc to help when we were ready to expand and needed to do more internal printing our Account Representative was there for us to help us make the right choice for our needs at the best cost. They even went as far as allowing us to do a trial week at no charge for our latest addition of copier.
